

Tom -

Feel free to send the closure notification whenever you're ready. Let me know if you need me to finalize cost documentation details with Pat before you prepare the change order; otherwise, feel free to develop it (it will be FHWA non-participating).

Thanks.

Chriss

This email from Daviess County will allow INDOT to come to terms with Force Construction for the reconstruction of the approach grades on CR 1200N. Force gave us an estimate of \$ 900,000 and the negotiations by Chriss and I last Friday and, with Daviess County commissioners approval, the work will cost \$ 750,000.

Subject: CR 1200N Overpass

Elliott,

I have spoken with Commissioner Michael Taylor about the bonding issue for the borrow on 1200N. He and I have concurred on the following.

In order to partner with INDOT and Force Construction to allow for a more cost effective and timely correction to the 1200N overpass Daviess County will forgive any road bonding requirements at this location. This is with the commitment from Force that all borrow will be hauled as legal highway loading.

Due to the fact that TJL has bonding on CR 475E we will need to make sure that a pre-construction video is taken so as not to cloud this issue with TJL.

Also there are approximately six residents on CR 1100N and one on CR 250E that Dust control will need to be provided.

I you have further questions please feel free to call us.
